

Social Media Presence Checklist

Fewer platforms, done consistently, beats being everywhere and nowhere at once.

FOUNDATION

- ☐ A business profile — not a personal one — is set up on the 1–2 platforms your customers actually use
- ☐ Profile photo, cover image, and bio are complete and consistent with your brand
- ☐ The link in bio points to a relevant landing page, not just a generic homepage
- ☐ Business category, hours, and contact info are filled in

ENGAGEMENT

- ☐ Comments and messages get a response within a reasonable window
- ☐ Reviews and mentions are monitored, and both good and bad ones get a reply

CONTENT RHYTHM

- ☐ A realistic, sustainable posting schedule exists — consistency beats frequency
- ☐ The content mix includes more than promotions: behind-the-scenes, tips, customer stories
- ☐ Visuals are consistent with your brand — colors, fonts, and tone

MEASUREMENT

- ☐ You know which platform actually sends traffic or leads to your site — checked in analytics, not by feel
- ☐ Effort is not spread across platforms that return nothing measurable
